

A Brief Report on CBR activities of SACRED Project Mandals in the month of JUNE- 2020

Overview:-

SACRED has been practicing and implementing Community Based Rehabilitation measures Men with disabilities , Children with disabilities and Women with disabilities to be rehabilitated in their own environment. The parents, Sangha leaders are responsible to provide total rehabilitation measures in helping People With Disabilities to manage betterway to live at home and in the community with dignity.

The experiences of CBR and IBR have their own strengths and weaknesses when we look at the present crisis lot of advantages on CBR.The parents and community members are well defined to take care of their own Person With Disabilities by using IBR sevices to access with in the community ownership. There are many advantages of CBR utilizing local resources(material), mobilizing total community awareness, appropriately to provide services at home based and community based manner.It is very important to ensure community participation and community involvement. Priority has to hand holding responsibilities and ownership to them.
